

EVALUATING A
PHARMACEUTICAL
CALCULATIONS
COURSE USING
THE KIRKPATRICK
MODEL

DONALD L. KIRKPATRICK
AND JAMES D. KIRKPATRICK

EVALUATING TRAINING PROGRAMS

THIRD EDITION

THE FOUR LEVELS

Learners will be able to:

- Discuss how Kirkpatrick's Four Levels of Evaluation provides a framework for evaluating a course.
- List at least four sources of data that can be used to evaluate a course.
- Critique a course evaluation using key elements of Kirkpatrick's Four Levels of Evaluation as criteria.
- Utilize a stepwise process to collect course data to defend course adjustments.

Presenters

Kimberly K. Daugherty, Pharm.D, Ph.D.

Associate Dean of Academic Affairs and Assessment
Sullivan University College of Pharmacy and Health Sciences (SUCOPHS)

Sarah Raake, PharmD, MEd, BCACP, LDE

Associate Professor / Director of Instructional Effectiveness
SUCOPHS

Ben Stephens, M.Ed.

Instructional Support Specialist
SUCOPHS

About us: Sullivan University College of Pharmacy & Health Sciences

- Private institution in Louisville, KY
- Contains 2-year Master's level Physician Assistant (PA) program and 3-year Doctor of Pharmacy (PharmD) program
- Year-round, quarter-based system
- No large assessment office
- Faculty and course coordination self-sufficiency is a must

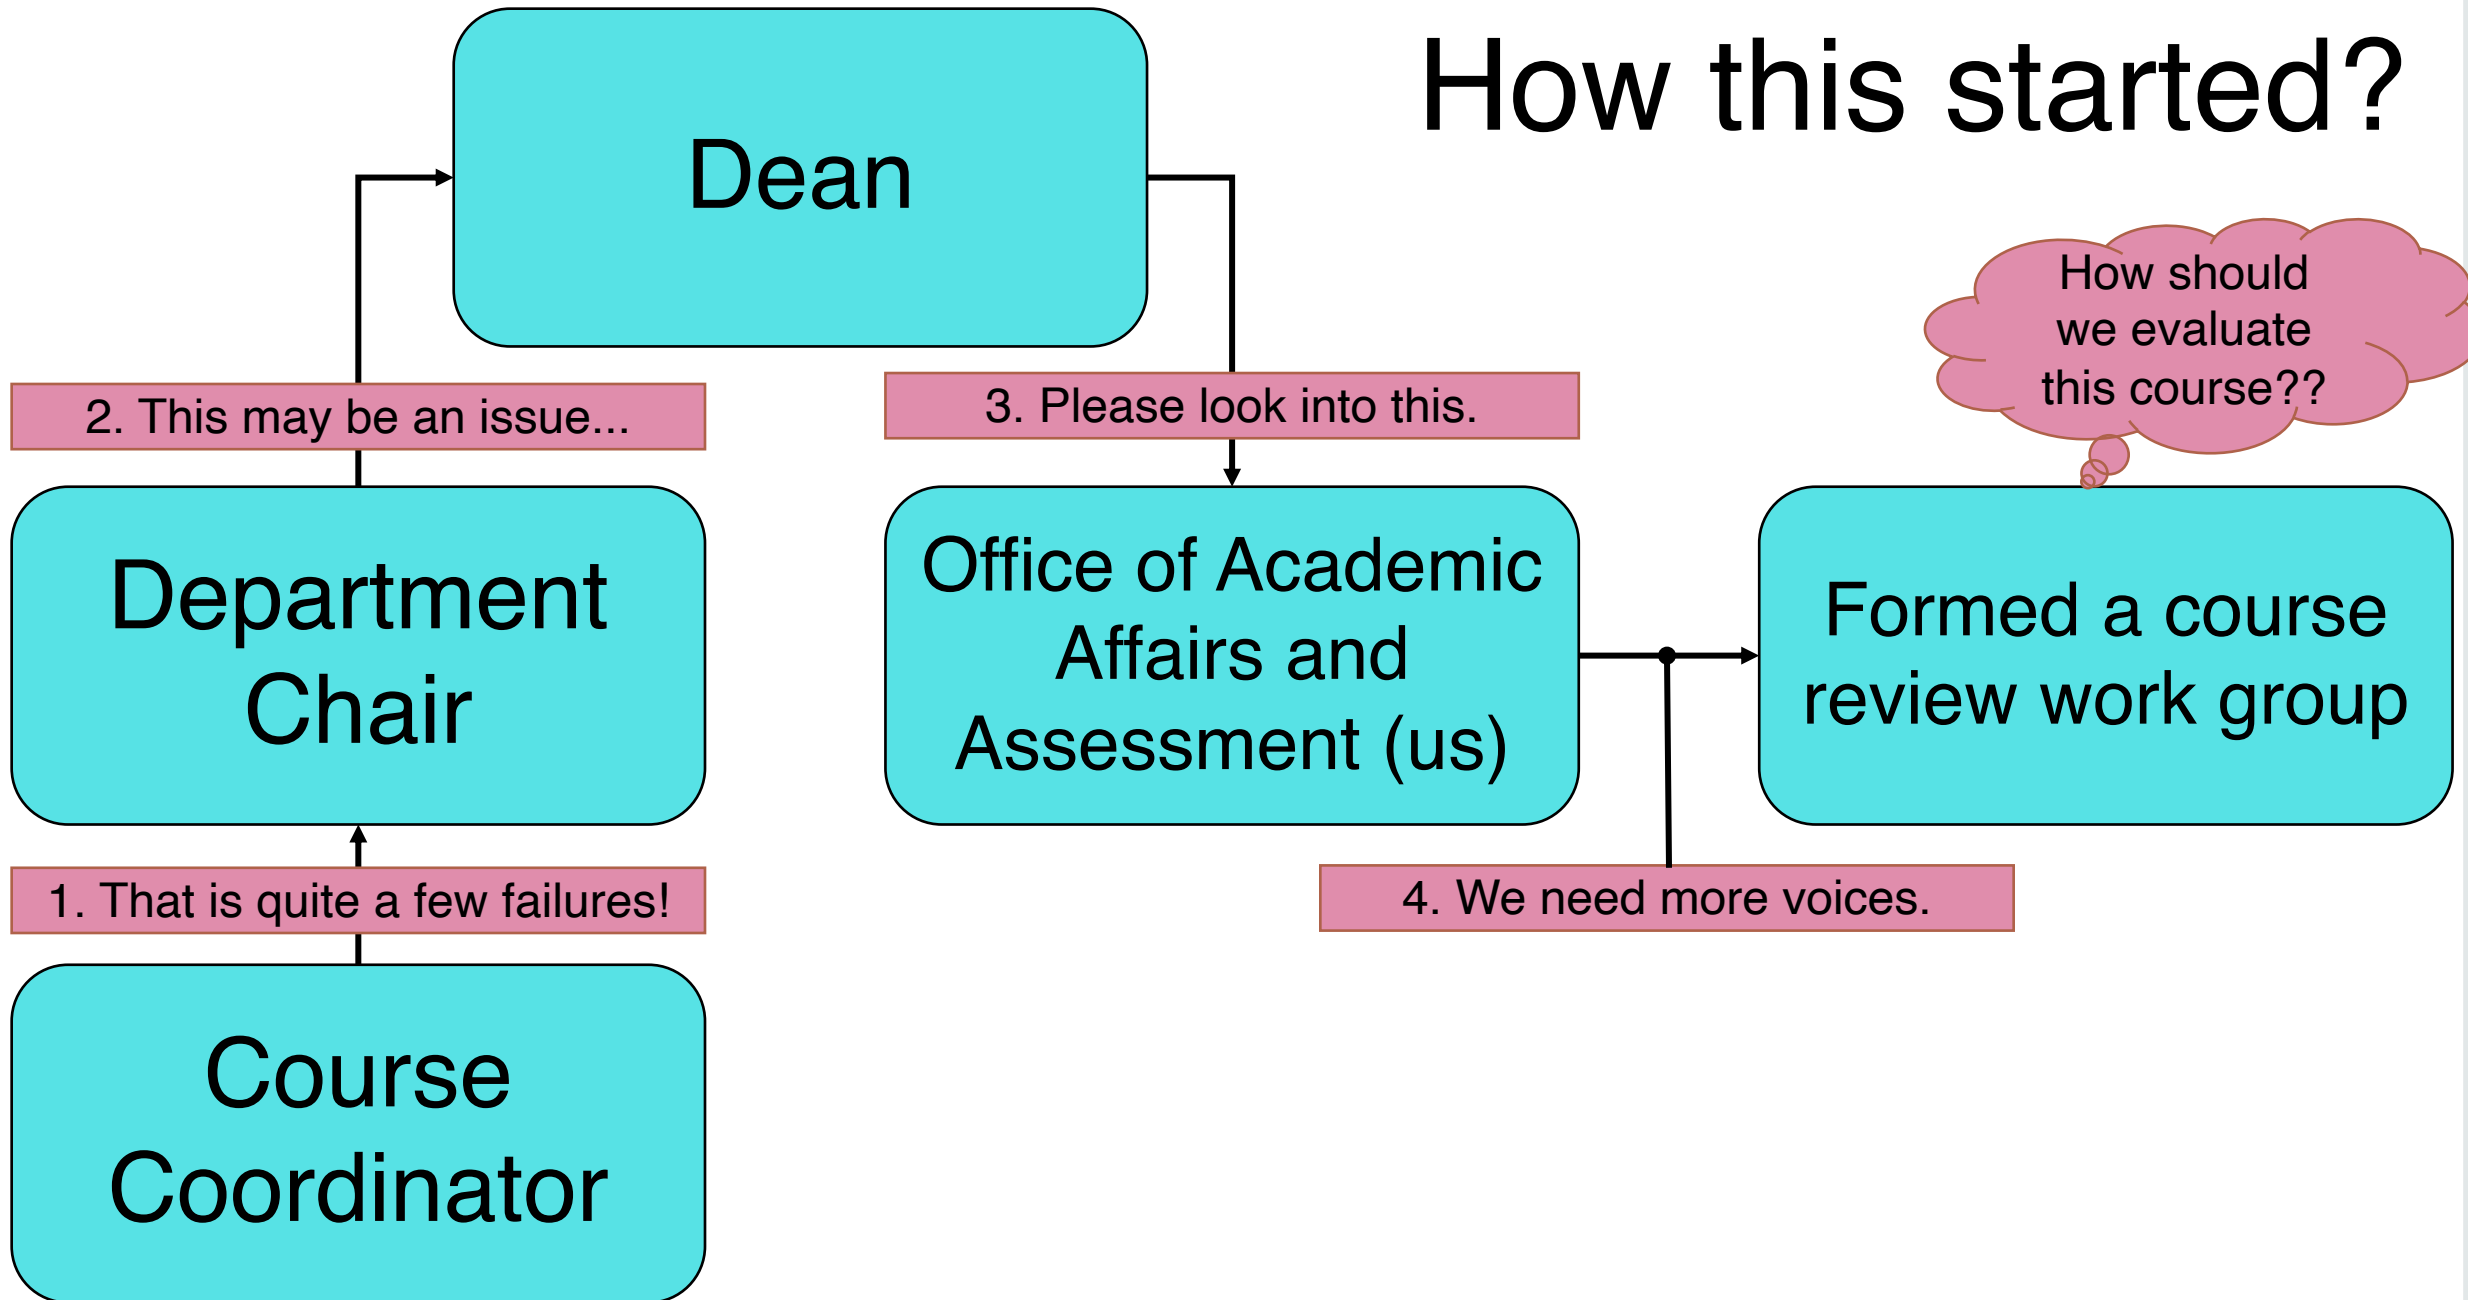

The Situation

Several students in PharmD program were failing Pharmaceutical Calculations and were struggling on the NAPLEX (licensure exam) in this area.

Pharmaceutical Calculations is essentially applying algebraic principles to story problems.

Many of our students had taken higher level math courses but were still struggling.

How this started?

Overview of Kirkpatrick

Level 4:
Results

Timeline

EC: Executive Committee

OAcA: Office of Academic Affairs & Assessment

8-10-month process

Level One – Reaction

Kirkpatrick Guideline

Determine what you want to find out

Design a form that will quantify reactions

Encourage written comments and suggestions.

Get 100 percent immediate response

Get honest responses.

Develop acceptable standards

Measure reactions against standards and take appropriate action

Communicate reactions as appropriate.

Our Process

Survey approved by administration

LMS (Blackboard) / Qualtrics supports this

Open response questions were included

Completion of the surveys were tied to next quarters' grades

Responses were anonymous in LMS; Qualtrics confidential

Typically compared to other course scores

Committee was formed to address concerns

Course coordinator and chair were kept apprised

Level One – Data Sources

We examined:

- Survey data from the previous 3 years

Created by Vectors Point
from the Noun Project

The Survey

Likert Questions – Strongly Disagree, Disagree, Agree, Strongly Agree

1. The course addressed the topics outlined in the syllabus.
2. The instructor(s) followed the syllabus (including revisions communicated to the class).
3. The course was organized and flowed well.
4. In addition to slides, the other learning materials, if used (textbooks, additional reference books, videos, weblinks, etc.) were helpful to my understanding of the course.
5. The assessments (exams, quizzes, assignments, etc.) were representative of course content.
6. I was provided with adequate and timely feedback on my performance and course issues.
7. Overall, I would rate this course as a high-quality course.

Open Response

8. List any strengths of this course:
9. List ways the course be improved to help your learning experience.

Survey Results

The course was organized and flowed well.

| | 2018 (N=63) | 2019 (N=47) | 2020 (N=45) |
|----------------------|-------------|-------------|-------------|
| Strongly Agree/Agree | 85.7% | 98% | 73.3% |
| Disagree | 6.35% | 0% | 20% |
| Strongly Disagree | 7.94% | 2.13% | 6.67% |

Survey Results

The assessments (exams, quizzes, assignments, etc.) were representative of course content.

| | 2018 (N=63) | 2019 (N=47) | 2020 (N=45) |
|----------------------|-------------|-------------|-------------|
| Strongly Agree/Agree | 69.8% | 93.7% | 82.2% |
| Disagree | 20.6% | 4.3% | 11.1% |
| Strongly Disagree | 9.5% | 2.1% | 4.4% |

Survey Results

Overall, I would rate this course as a high-quality course.

| | 2018 (N=63) | 2019 (N=47) | 2020 (N=45) |
|----------------------|-------------|-------------|-------------|
| Strongly Agree/Agree | 73% | 97.9% | 66.7% |
| Disagree | 19.1% | 2.1% | 20% |
| Strongly Disagree | 7.9% | 0% | 11.1% |

Survey Results

(Open Response)

List ways the course could be improved to help your learning experience. (A few themes)

2018

Extra practice problems

Incorrect arithmetic / errors

Exams need to connect to classwork

Students need to be taught systematic approach for solving problems

2019

Need more practice problems

Incorrect arithmetic / errors

Homework was easier than assessments

Professor to student communication

2020

Need more practice problems

Too fast paced

Poor alignment between HW, quizzes, and exams

Professor to student communication

Level One – Findings

- Students found practice problems beneficial and wanted additional practice problems.
- Students were concerned about arithmetic errors with lectures and homework questions.
- Students perceived the instructional practice problems, the quizzes, and the summative assessments were not written at the same level of complexity.
- Some students felt that there was not a clear organization or structure to the course.

Level Two – Learning

Kirkpatrick Guideline

Our Process

Use a control group in practical

Evaluate knowledge, skills, and/or attitudes both before and after the program.

Use a paper-and-pencil test to measure knowledge and attitudes.

Use a performance test to measure skills

Get a 100 percent response.

Use the results of the evaluation to take appropriate action.

LMS quizzes were used as formative assessments throughout the course.

Examsoft assessment were provided throughout the course.

All students completed the assessments.

Exam data was reviewed to make changes in exams and course.

Level Two – Data Sources

We examined:

- Summative assessment data from our assessment platform, Examsoft

Created by Eko Purnomo
From the Noun Project

Exam 1 Overview – 2018-2020

2018

ASSESSMENT PERFORMANCE

85% Average Score (38.2/45)
29% Low Score (13/45)
100% High Score (45/45)

Assessment Score Reliability (KR-20)

0.0 0.83 1.0

POOR SATISFACTORY GOOD

Likelihood of students repeating the same performance.

Total Student Performance Histogram

2019

ASSESSMENT PERFORMANCE

82% Average Score (31.2/38)
24% Low Score (9.2/38)
106% High Score (40.2/38)

Assessment Score Reliability (KR-20)

0.0 0.91

POOR SATISFACTORY GOOD

Likelihood of students repeating the same performance.

Total Student Performance Histogram

2020

ASSESSMENT PERFORMANCE

77% Average Score (31.5/41)
7% Low Score (3/41)
100% High Score (41/41)

Assessment Score Reliability (KR-20)

0.0 0.93

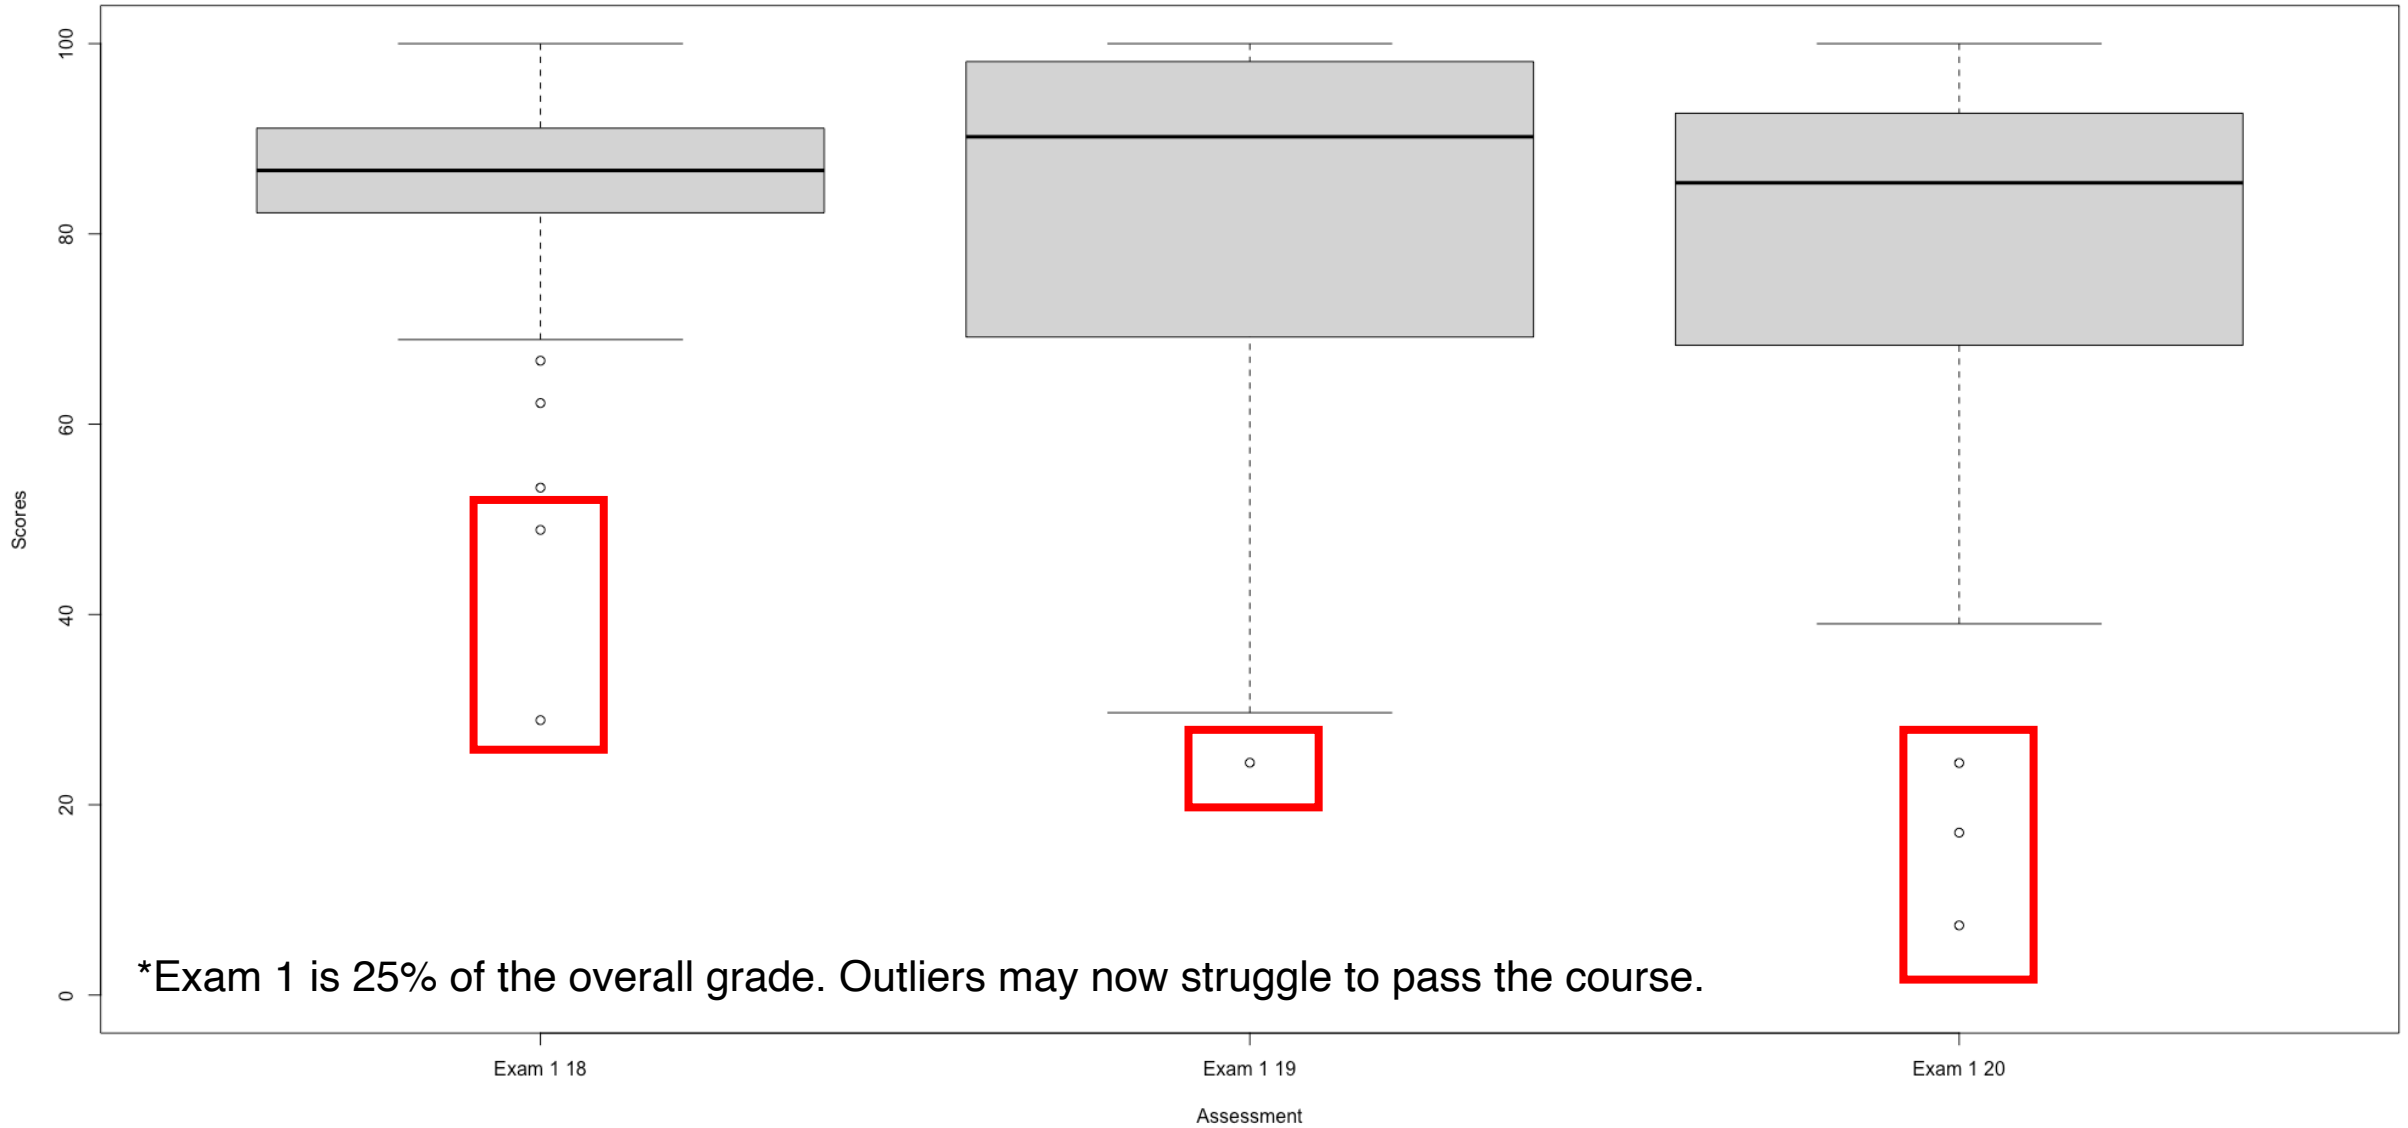

POOR SATISFACTORY GOOD

Likelihood of students repeating the same performance.

Total Student Performance Histogram

Exam 1 - '18, '19,'20

*Exam 1 is 25% of the overall grade. Outliers may now struggle to pass the course.

Exam 2 Overview – 2018-2020

2018

ASSESSMENT PERFORMANCE

77% Average Score (30.9/40)
25% Low Score (10/40)
100% High Score (40/40)

Total Student Performance Histogram

Assessment Score Reliability (KR-20)

2019

ASSESSMENT PERFORMANCE

83% Average Score (29.1/35)
47% Low Score (16.4/35)
107% High Score (37.4/35)

Total Student Performance Histogram

Assessment Score Reliability (KR-20)

2020

ASSESSMENT PERFORMANCE

79%* Average Score (26.8/34)*
29%* Low Score (10/34)*
103%* High Score (35/34)*

*Bonus points were available on this assessment and were calculated into the score.

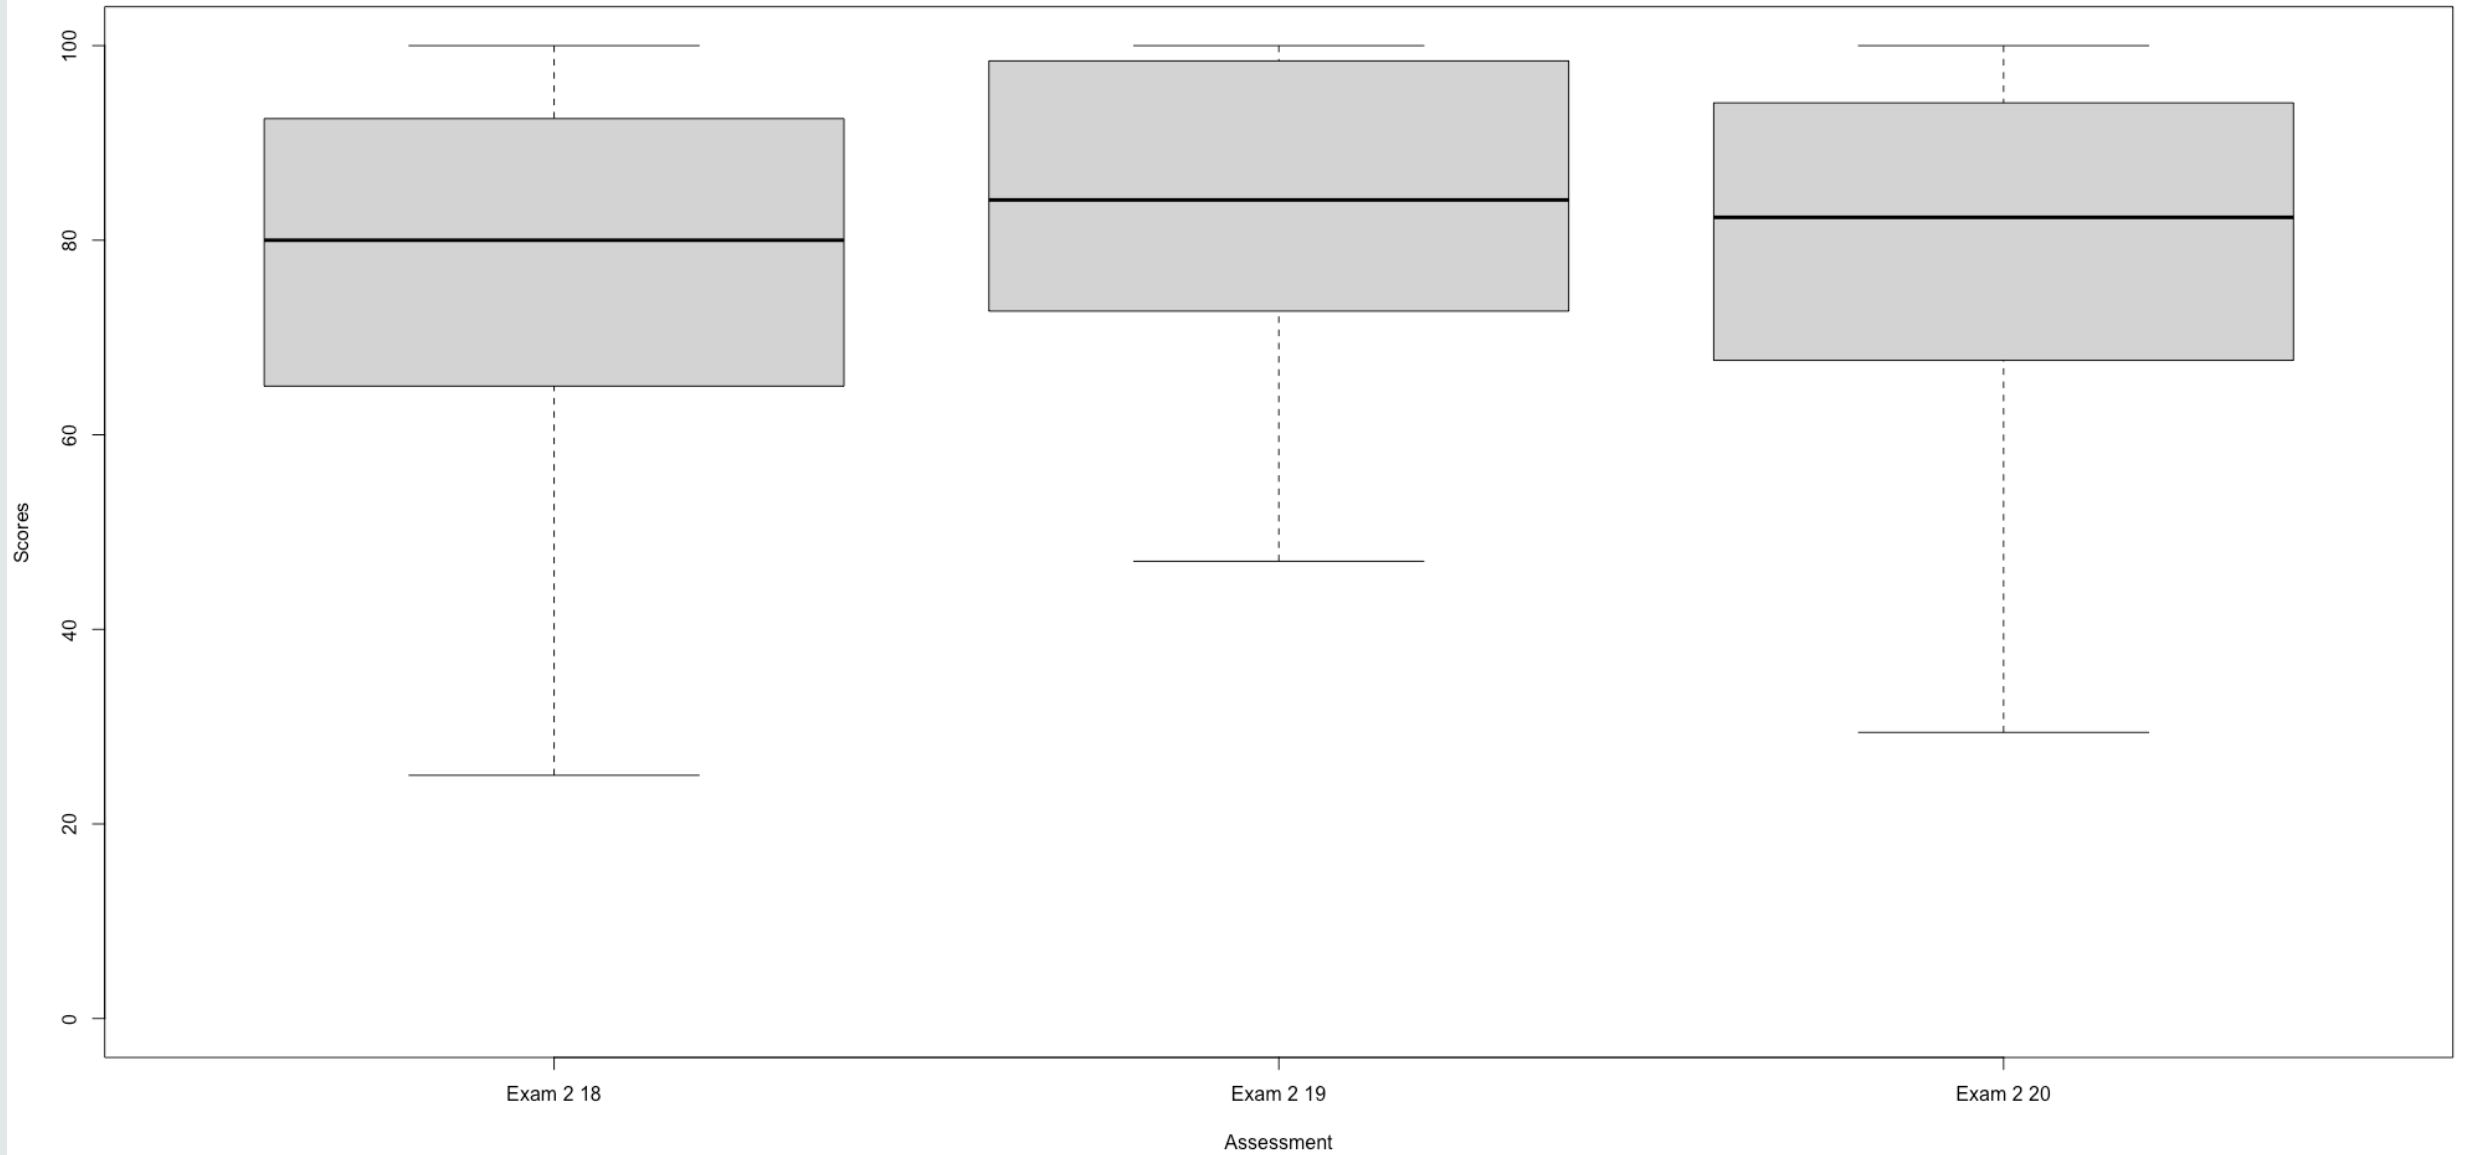

Assessment Score Reliability (KR-20)

Total Student Performance Histogram

Exam 2 - '18, '19,'20

Final Exam Overview – 2018-2020

2018

ASSESSMENT PERFORMANCE

80% Average Score (40.1/50)
32% Low Score (16/50)
98% High Score (49/50)

Total Student Performance Histogram

Assessment Score Reliability (KR-20)

2019

ASSESSMENT PERFORMANCE

83% Average Score (33.2/40)
55% Low Score (22/40)
100% High Score (40/40)

Total Student Performance Histogram

Assessment Score Reliability (KR-20)

2020

ASSESSMENT PERFORMANCE

81%* Average Score (32.4/40)*
18%* Low Score (7/40)*
103%* High Score (41/40)*

*Bonus points were available on this assessment and were calculated into the score.

Assessment Score Reliability (KR-20)

Total Student Performance Histogram

Final - '18, '19,'20

Level Two – Findings

- Most students were performing well. The mean score on assessments was typically around 80% or above.
- There was a wide range of scores.
- There were a few students who scored low enough on the exams to be considered outliers. A student who scores 30% on exam 1 would need to score an average of 83% on the remaining assignments / assessments to pass the course.
- "Either students were getting it, or they didn't."

Level Three – Behavior

Kirkpatrick Guideline

Our Process

Use a control group if practical.

Allow time for behavior change to take place.

Evaluate both before and after the program if practical.

Survey and/or interview one or more of the following: trainees, their immediate supervisor, their subordinates, and other who often observe their behavior

Get 100 percent response or a sampling

Repeat the evaluation at appropriate times.

Consider cost versus benefits

We waited 2 months to conduct the focus group.

A focus group was conducted a few weeks after the course completed.

We choose a sampling of high and low performers.

Level Three – Data Sources

We examined:

- Feedback from a focus groups
- Admission and course performance data to look for early warning signs of possible course failure

Created by shashank singh
from noun project

Focus Group

The focus group:

- was led by three faculty members not associated with the course.
- was comprised of students who performed well in the course and students who struggled.

Created by WEBTECHOPS LLP
From Noun Project

Focus Group Findings

Homework / Practice

Arithmetic mistakes within the exiting practice problems

Unable to practice specific questions or sort questions by topic

Students found the practice problems helpful

Summative Assessment

Difficulty was inconsistent between homework, quizzes, and tests

Not enough time on exams

Students wanted more time between lectures and assessment

Course

Too fast paced

There were issues with team members in some of the groups

The overall grade incorporated multiple assessments

Course Data Reviewed

- Admissions data
 - Correlations with Pre-admit Math GPA
 - Overall Pre-req GPA
 - Total math hours
- Course data
 - Exam scores to individual course assignment grades
 - Exam scores to Blackboard review activities
 - Review of exam questions from Exam 1

Admission Correlation data

- Pre-admit math GPA = 0.315
(weak correlation)
- Overall pre-rea GPA = 0.27
(weak correlation)
- Total math hours = -0.12
(weak negative correlation)

Created by WEBTECHOPS LLP
From the Noun Project

Course Data

- Individual assignments
 - Exam 1 score and Week 2 individual assessment: 0.73 (strong correlation)
 - Exam 1 score and average of Week 2-4 individual assessment: 0.61 (moderate correlation)
- Blackboard review activities
 - Exam 1 score vs Week 1-2 review (n=25): 0.72 (strong correlation)
 - Exam 1 score vs Week 1-3 review (n=20): 0.75 (strong correlation)
- ExamSoft question review for Exam 1
 - Exam discriminated between the top and bottom 27%
 - In review of questions missed by bottom 27%
 - Lots of wordy word problems
 - Several multi-step problems

Monitoring through Intentional Interleaving

- Calculations needed interleaved into the curriculum
- Subsection of calculations items included in every final exam of lab sequence
- Study materials/reviews posted for retrieval practice
- Continued assessment of retention

Course Adjustments

Big Picture

This course was working for most students.

How could we support struggling students without making major changes? The course needed fine tuning.

Detailed Course Adjustments

| Finding | Adjustment |
|---|--|
| Students felt additional practice problems were helpful and wanted more. | Created a script in R to generate multiple versions of existing calculations problems. |
| Students wanted additional communication with the course coordinator. | A lab coordinator was added to the course. |
| A small percentage of students clearly did not learn the material. | A lab coordinator was added to expand office hours and additional practice problems were provided. |
| Students wanted more time between instruction and assessment. | The course scheduled was adjusted. |
| Early assessments within the course were correlated with overall performance in the course. | Coordinators made sure to reach out to students who failed early assessments. |
| Some of the assessment items were excessively wordy. | Coordinators reviewed test items. |

Level Four – Results

Kirkpatrick Guideline

Our Process

Use a control group if practical.

Allow time for results to be achieved.

Measure both before and after the program if practical.

Repeat the measurement at appropriate times.

Consider cost versus benefits

Be satisfied with evidence if proof is not possible.

Changes have been run for 1 year; continue to monitor.

Data was collected prior to change and after changes were implemented.

Exams and course evaluations were administered along the usual schedule.

Course data was followed to ensure addition of the lab coordinator was helpful. Practicing pharmacists would NOT be assessed.

KEY POINT! We needed to show “upper management the training was worthwhile” at the end of the course.

Survey Results - Update

The course was organized and flowed well.

| | 2018 (N=63) | 2019 (N=47) | 2020 (N=45) | 2021 (N=40) |
|----------------------|-------------|-------------|-------------|-------------|
| Strongly Agree/Agree | 85.7% | 98% | 73.3% | 82.5% |
| Disagree | 6.35% | 0% | 20% | 17.5% |
| Strongly Disagree | 7.94% | 2.13% | 6.67% | 0% |

Survey Results - Update

The assessments (exams, quizzes, assignments, etc.) were representative of course content.

| | 2018 (N=63) | 2019 (N=47) | 2020 (N=45) | 2021 (N=40) |
|----------------------|-------------|-------------|-------------|-------------|
| Strongly Agree/Agree | 69.8% | 93.7% | 82.2% | 100% |
| Disagree | 20.6% | 4.3% | 11.1% | 0% |
| Strongly Disagree | 9.5% | 2.1% | 4.4% | 0% |

Survey Results

Overall, I would rate this course as a high-quality course.

| | 2018 (N=63) | 2019 (N=47) | 2020 (N=45) | 2021 (N=40) |
|----------------------|-------------|-------------|-------------|-------------|
| Strongly Agree/Agree | 73% | 97.9% | 66.7% | 95% |
| Disagree | 19.1% | 2.1% | 20% | 2.5% |
| Strongly Disagree | 7.9% | 0% | 11.1% | 2.5% |
