

# But What Do *They* Call It?

*Communicating the Value of Engaged Learning to Students*

**Allie Bertram**, Communications Strategist, IU-Indianapolis Division  
of Undergraduate Education

**Lorrie Brown**, Executive Director of Student Engagement, IU –  
Indianapolis Institute for Engaged Learning

**INSTITUTE FOR ENGAGED  
LEARNING**  
INDIANAPOLIS

# Presentation Overview

---

- Introduction and background
- Research results
- Communications strategy
- Deliverables
- Discussion and Questions

# Background

---

- Urban Campus
- Primarily commuter
- Students work more than peer institutions
- Demographically diverse, but mostly Indiana residents
- Competing priorities

# Process

Research & Discovery

Analyze & Evaluate

Develop

Test

Deliver & Implement

*Develop an evidence-informed strategy for effectively communicating IUPUI engaged learning opportunities and their value to students and other stakeholders.*

**CORE STEERING GROUP CHARGE**

# The Research

**INSTITUTE FOR ENGAGED LEARNING**  
INDIANAPOLIS

# Data-gathering methods

- Scan of external messaging at 26 institutions
  - IUPUI competitors
  - IUPUI peer institutions
  - Exemplars in engaged learning
- Review of internal documents
- IRDS summaries
  - IEL assessments and evaluations
  - IUPUI marketing materials
- Gathering of new data
  - Focus groups
  - Individual stakeholder interviews
  - Surveys

# The Research

- 7 focus groups
- 10 interviews
- 6 surveys
- Environmental scan
- Review of thought leadership on high-impact practices
- Review of existing IUPUI reports, dashboards, reflections, etc.
- **2,632** students
- **78** faculty and staff
- **21** community organizations
- **15** family members of current students
- **28** other institutions of higher education

# The Results

**INSTITUTE FOR ENGAGED LEARNING**  
INDIANAPOLIS

## Themes from the research

**01** Terminology

**02** Barriers to Involvement

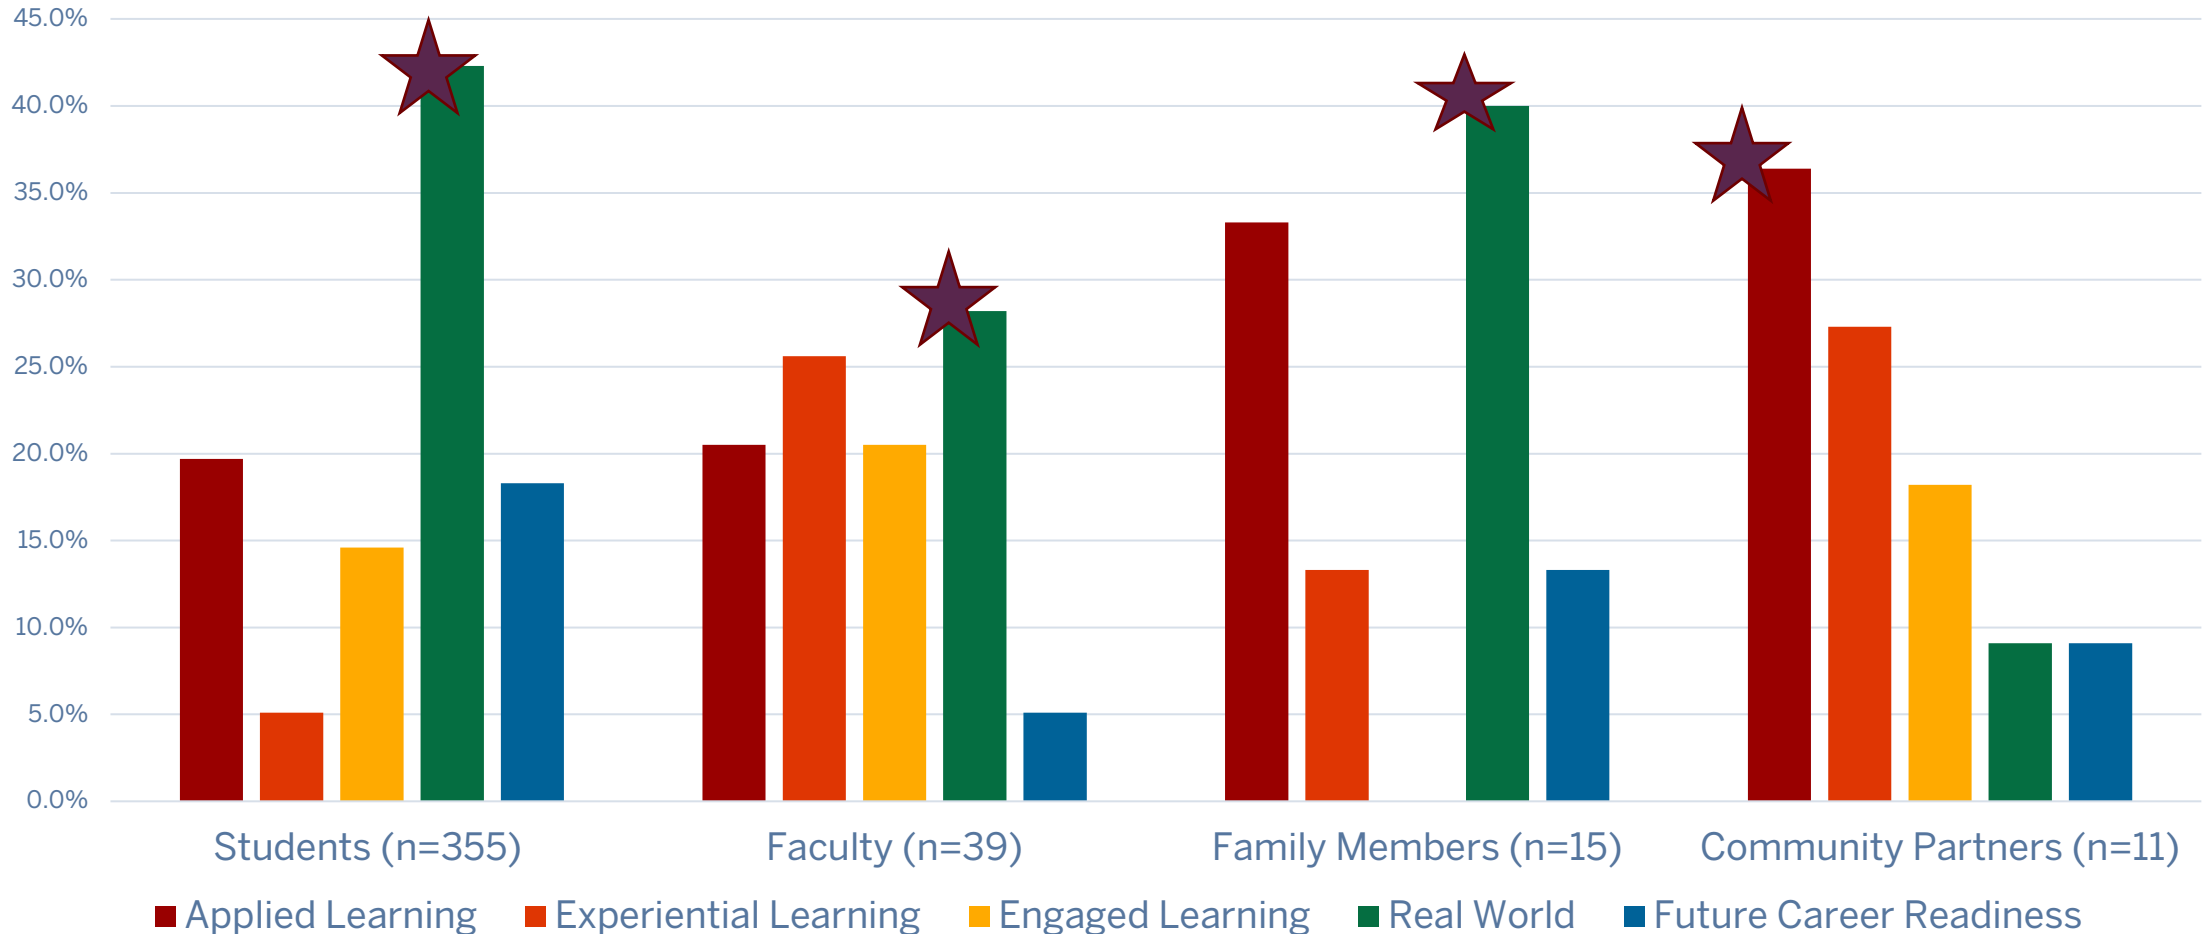

**03** Awareness & Perceptions

**04** Communication

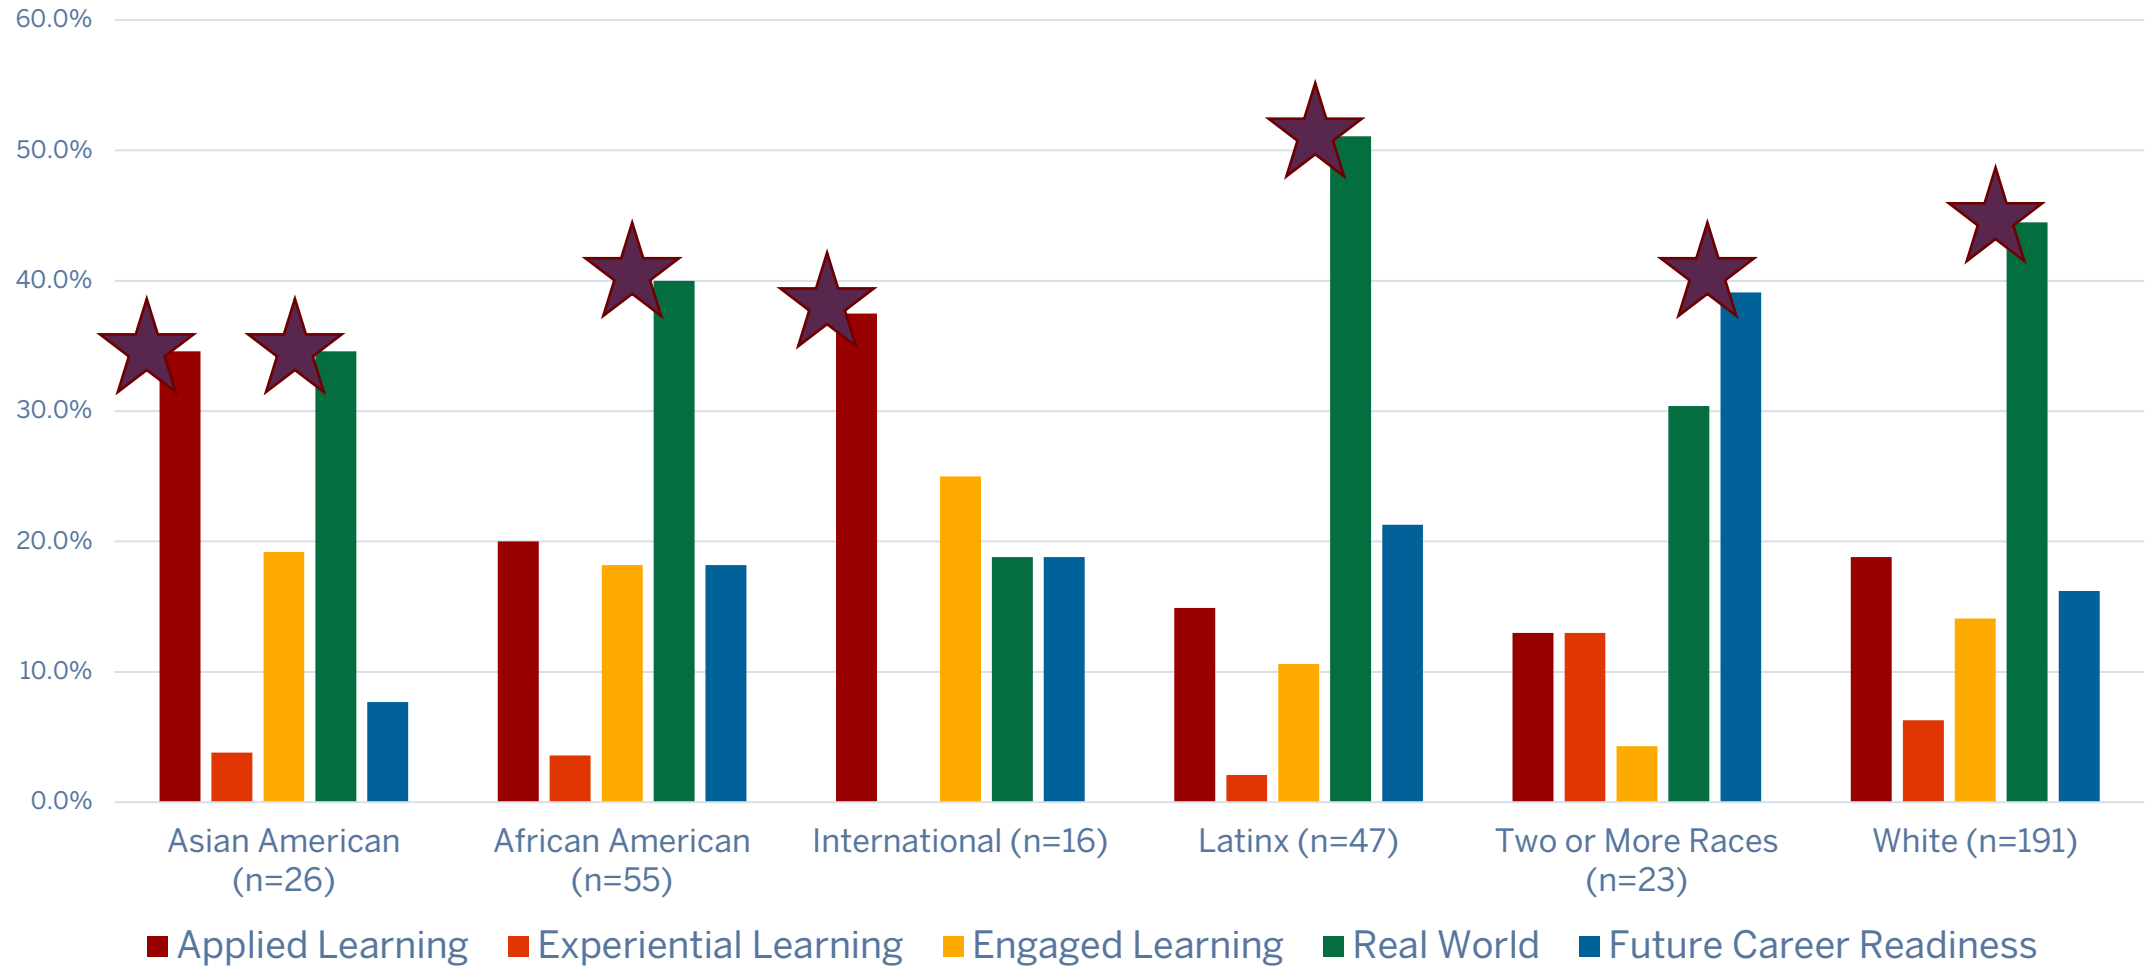

# Terminology varies by and within audiences

*Terminology*

# Variance among students by race/ethnicity

# Select Research Highlights

---

- Barriers:
  - Advanced planning, awareness
  - Time, money
  - Confidence
- Preferences:
  - Email
  - Advisors, faculty

**If I got an internship, I would have to drop something.**

-Student Interviewee

**It can be difficult for students to find programs without knowing the name of what they're looking for.**

-Advisor Interviewee

**Students often have no set idea of what they are going to do.**

-Advisor Interviewee

## Time

- Most frequently listed across audiences
- Felt especially by those who have work, care for dependents, commute
- Consider opportunities too late, lack of planning
- Intersection with affordability

**If I got an internship, I would have to drop something.**

--Student Interviewee

## Confidence

- Staff report lack of confidence in skills or experience
- Lack of self-efficacy in students leads to a late start on these activities in college career
- Students sometimes don't see themselves or people like them in these activities

**Students often have no set idea of what they are going to do.**

--Advisor interviewee

## Awareness

- Students don't know where to go
- Students are overwhelmed by opportunities

**It can be difficult for students to find programs without knowing the name of what they're looking for.**

--Advisor interviewee

## Affordability

- Inability to forego income from part-time jobs for unpaid opportunities
- Students more likely to work off campus than on campus
- Intersection with time

Slightly more than half (53%) of students plan to work for pay off-campus during their first year while 46% plan to work for pay on-campus.

IUPUI Entering Student Survey 2022

# (Some) Solutions to Barriers

- Many solutions to the barriers are already in place.
- We may not need *more* opportunities, but we need more awareness.
- Emphasize paid, for-credit opportunities to alleviate financial and time concerns.
- Feature a wide variety of students who participate and not just the outstanding examples.

# Awareness & Perceptions

- The 27% of students who indicated they did know where to find information had a wide variety of answers.
- Top answers included professors, advisors, and Handshake
- Students come to IUPUI for engaged learning without realizing what exactly it is.
- Interest, awareness and opportunities vary across disciplines

# Perceived Importance

- Broad consensus that engaged learning opportunities are important. All groups from the questionnaires agreed that completing at least one engaged learning experience prior to graduation was important: parents and families (93%), faculty (97%), students (99%).

# The Strategy

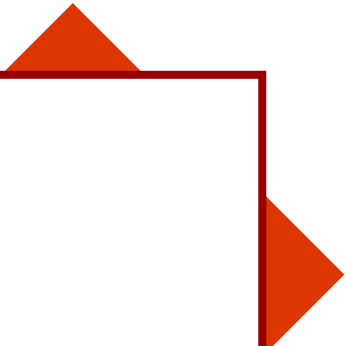

**INSTITUTE FOR ENGAGED LEARNING**  
INDIANAPOLIS

*Students will believe in the value of engaged learning and be motivated to participate in experiential learning opportunities.*

## **The Goal**

*All campus stakeholders will more consistently and intentionally communicate about engaged learning.*

**How?**

# What Students Find Valuable

Intersection of  
Career and  
Personal Benefits

Choice and  
Agency

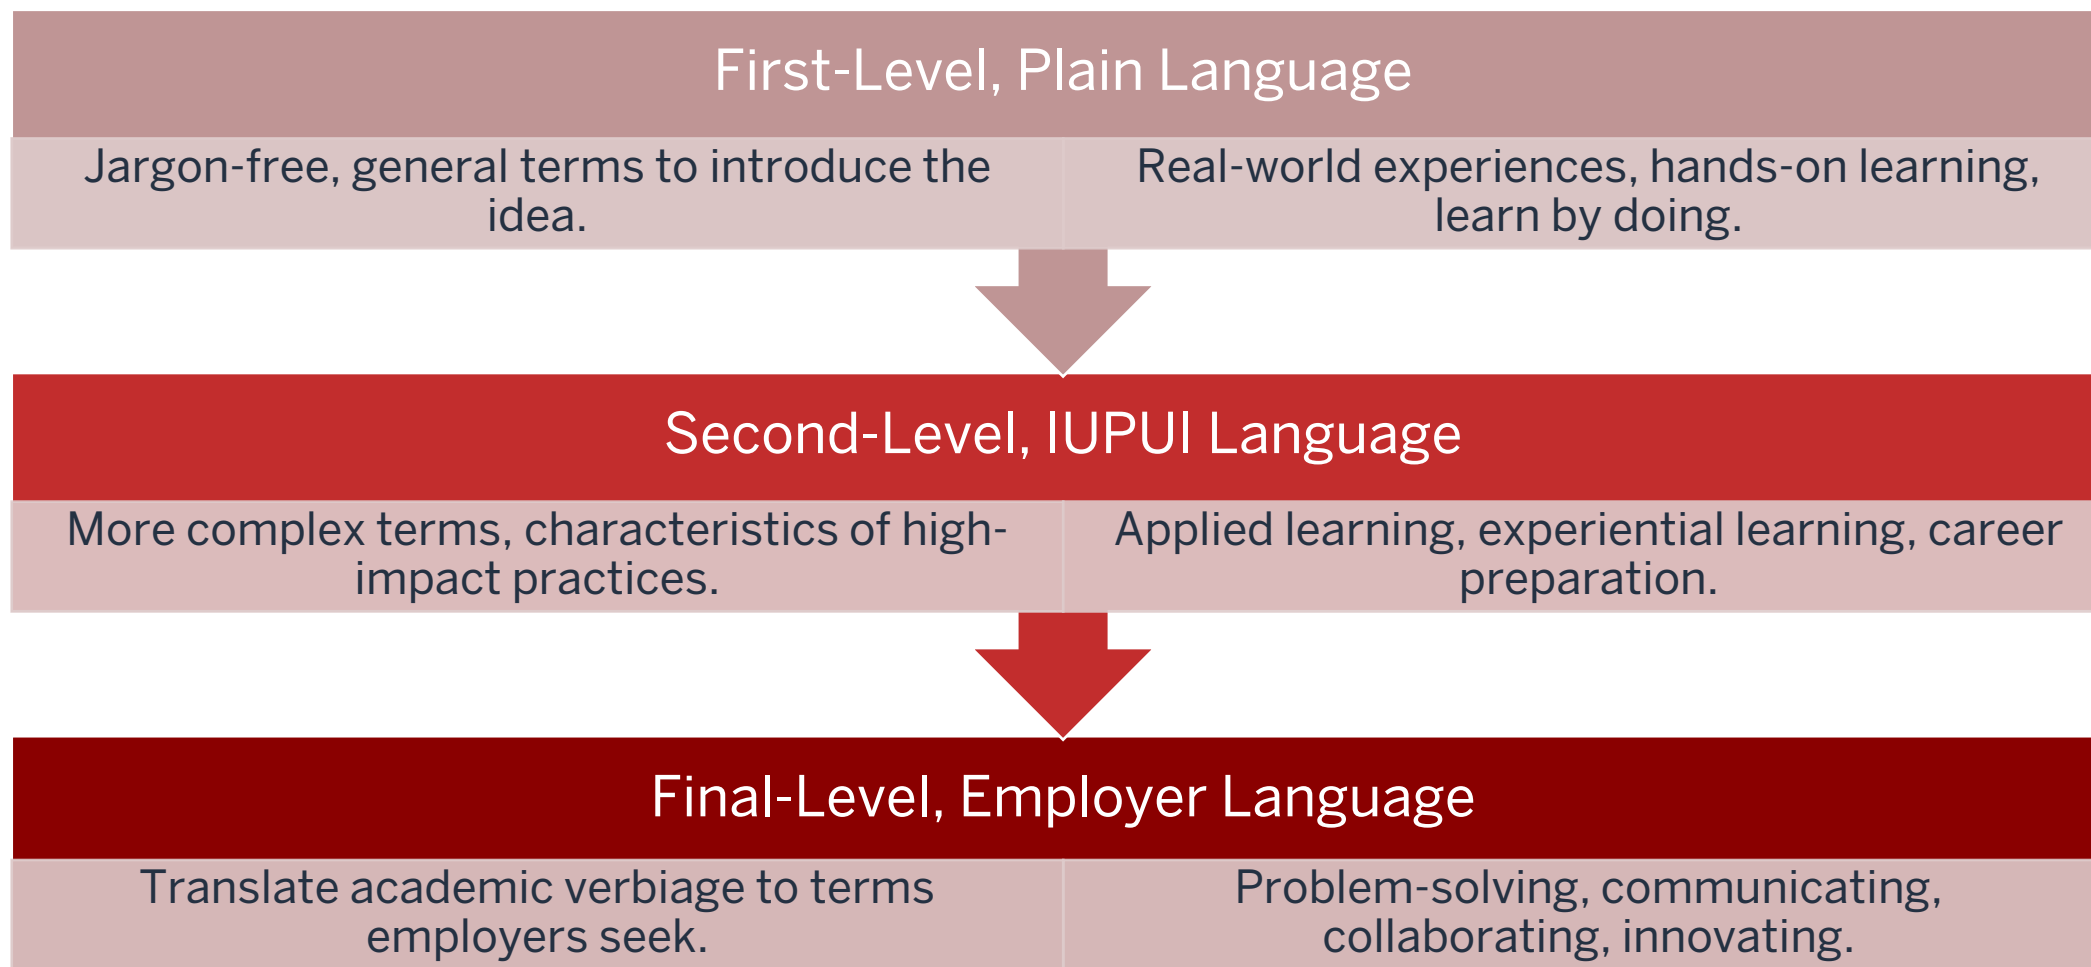

Accessibility

Unifying Themes: *"The IU Indy Way"* and *Connection to the City*

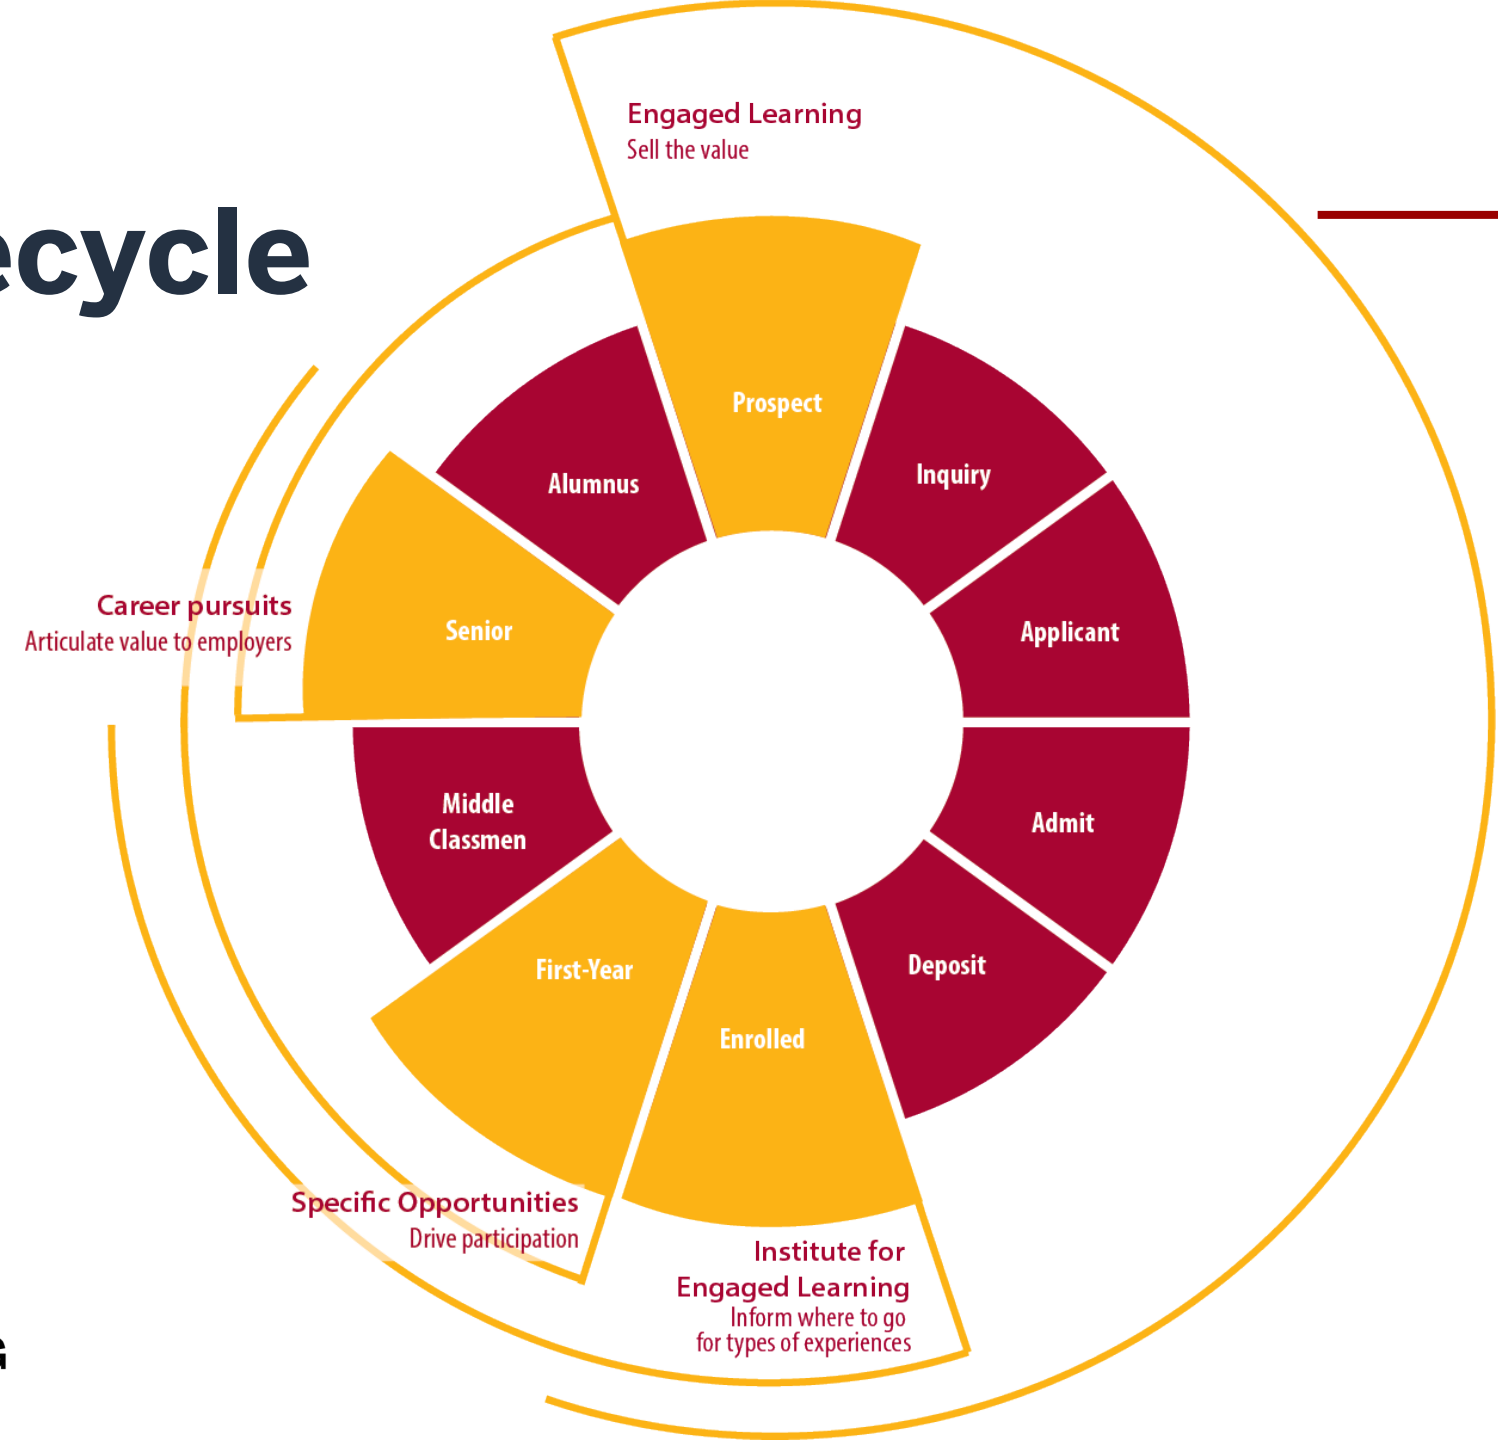

# What we say matters

# Student Lifecycle Messaging

# Student Lifecycle Messaging

# Examples of Implementation

My Plan | Date: \_\_\_\_\_

- Bridge Week \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

 **IUPUI**  
INSTITUTE FOR ENGAGED LEARNING

*You've completed your first engaged learning experience*

## CONGRATULATIONS!

At IUPUI, Jags strive to complete at least four engaged learning experiences throughout their academic journey. You'll be able to customize your experience and choose from *internships, research, civic engagement, study abroad programs*, and so much more. Don't forget, something special about IUPUI is that many of your courses will have real-world experiences too.

**What will you choose?**

# IU-Indianapolis 2030

---

**Objective: Career readiness.** Ensure all degree programs include integrated experiential learning experiences to help students become more career-ready and competitive in the job market.

**Metric:** *Embed experiential learning opportunities (e.g., internships, service learning, research) into 100% of undergraduate degree programs.*
